

THE QUESTIONNAIRE FOR THE ORDER OF PUMPS

Company Name							
Address							
Surname and Name							
Position:							
Country Code:		Tel:		Fax:		E-mail:	

General Technical Requirements

Pump type	
Number of pumps	
Purpose	
Nominal supply, m ³ /h	
Nominal pressure, m	
Underpressure at the input of a pump	
Speed of rotation, rpm	
Engine power, kW	
Efficiency factor, %	
Net Positive Suction Head (NPSH), m	
Grooving material	
Additional requirements to pump	

Operational Requirements

Climatic modification and category of accommodation	
Ambient temperature, °C	
Availability of factors highly explosion and fire danger	
Additional operational requirements	

Requirements to Shaft Seal

Type and execution of shaft seal	
Presence of seal system	
Buffer/ Barrier fluid	
Cooling liquid	
Additional requirements to seal	

Information about Pumping Agent

Type and chemical structure of pumping agent	
Operating temperature, °C	
Density at working temperature, kg/m ³	
Viscosity at working temperature, mm ² /s	
Presence and quantity of abrasive inclusions	
Additional information about pumping agent	

Requirements to Drive

Electric motor	
Power, kW	
Voltage, V	
Speed of rotation, rpm	
Explosion-proof requirement	
Additional requirements to drive	
Coupling (Muff) type	

Manufacture
 CJSC Scientific and Manufacturing Enterprise
 "Oil and Gas Equipment"

Special information / Request
